

Leftover medications
are a threat to our kids
and the environment.

Keeping unused, unwanted or expired medications can contribute to accidental poisonings and abuse. Throwing them away is harmful to the environment.

Safely dispose of unwanted or expired over-the-counter and prescription medications by taking them to a participating pharmacy.

Items accepted include:

- Cold and flu medications
- Antibiotics/steroids
- Medication samples
- Non-controlled prescription medications
- Vitamins/herbal supplements
- Pet medications
- Medicated ointments/lotions

*Narcotic pain killers and prescribed, controlled medications (e.g. Codeine, Ritalin, Xanax, Ambien, Vicodin, etc.) **must** be taken to a local law enforcement agency.*

Certain restrictions may apply at any of the drop off locations. Call the drop site you plan to use for more information on what items are accepted.

For a list of participating pharmacies and law enforcement drop boxes, go to www.wmtakebackmeds.org.

Disposal Instructions

1. Bring pills and liquids in their original containers to any participating pharmacy.
2. Block out **ALL** identifying personal information on the prescription label.
3. Do not remove the name of the medication.
4. The pharmacist must be able to see the medication type so he/she can properly sort and dispose of it.

Check the website for a complete list of participating agencies.

The West Michigan Take Back Meds Program is a joint effort between local pharmacies, law enforcement, wastewater treatment facilities, and government agencies to provide residents with safe, convenient access to proper medicine disposal.

Funding provided by the 2012 Michigan Department of Environmental Quality Community Pollution Prevention Grant Program.
