

# **“Measuring What Matters”**

## **Kent County Correctional Facility Annual Statistical Report 2006**

**Prepared by Captain Randy Demory  
January 29, 2007**

---

**KENT COUNTY SHERIFF DEPARTMENT**  
**Lawrence A. Stelma – Sheriff**

---

701 Ball Avenue, N.E. • Grand Rapids • Michigan • 49503

January 28, 2007

Here are some of my favorite quotes about statistics:

- 78.61% of statistics are made up on the spot. ~ Dr. John Paulos, mathematician at Temple University
- Figures don't lie, but liars can figure. ~ Unknown
- Statistics can be made to prove anything - even the truth. ~ Unknown
- Figures often beguile me, particularly when I have the arranging of them myself; in which case the remark attributed to Disraeli would often apply with justice and force: "There are three kinds of lies: lies, damned lies, and statistics." ~ Mark Twain, autobiography, 1904 (*but, as yet no actual record of this under Disraeli's authorship*)
- While the individual man is an insoluble puzzle, in the aggregate he becomes a mathematical certainty. You can, for example, never foretell what any one man will be up to, but you can say with precision what an average number will be up to. Individuals vary, but percentages remain constant. So says the statistician. ~ Arthur Conan Doyle

For the record, I promise I did not make up any of the statistics presented in this report, and I kept the lying to a minimum. With that forewarning, it is a pleasure to present this Annual Statistical Report for the year 2006. We began reporting jail data on a yearly basis in 1998, and each new report builds on the previous reports' foundation. Our goal is to provide accurate, interesting and representative information to Sheriff's Department staff, criminal justice planners, and community members who are interested in the operation of the county jail. We trust you will find this report to be a helpful source of data in the months ahead.

We organize this report to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population statistics address the topics of how many inmates are coming in, where are they coming from, why they are here, how long are they staying, and some of the programs and services provided to them. Incident Statistics allow us to evaluate the behavior of the inmate population while in jail.

You may notice that this year's report is shorter than the previous years' reports. We've attempted to make it more functional by including only the data that seems to be of general interest. We realize that this document will not answer every question you have. Please contact us and we will work with you to provide any additional information you need about the inmate population or facility operation. We value your comments and suggestions for future reports.

Sincerely,

Captain Randy Demory

# Inmate Profile at Time of Booking

age at booking	
teens	12.2%
20's	40.3%

returning	76.0%

**TrendSpotter!** We have provided this kind of inmate profile information since 2001 and we can point out a couple of interesting differences between this year and prior years. For example, this year the "age at booking" category confirms that the boomers return to jail even as they grow older. The most significant increase was in the number of people reporting no occupation. This year it was 50.5%, up from 33.3% two years ago. It is interesting that the recidivism statistic is exactly what it was in 2001. Some tables from 2001 that contain these and other statistics appear below to make it convenient to compare them against this year's information.

2001 age at booking	
teens	12.8%
20's	40.5%
30's	26.4%
40's	15.8%
50's	3.7%

returning	77.2%

### TrendSpotter!

This page contains information about male offenders, and it has the same interesting differences between this year and prior years that the last page had, including the high number of unemployed. In 2001 the age at booking was somewhat lower, and there are fewer first time offenders this year. Some tables from 2001 that contain these statistics appear below to make it convenient to compare them against this year's information.

2001 age at booking	
teens	13.0%
20's	41.2%
30's	25.6%
40's	15.4%
50's	4.0%
60's	0.7%
70's	0.1%

2001 shift released on	
first	44.4%
second	35.0%
third	20.6%

returning	71.5%

### TrendSpotter!

This page contains information about female offenders, and it has many of the differences between this year and previous years that the male offenders had. For example, in 2001 the age at booking was somewhat lower and there are fewer first time offenders this year when compared to previous years. This indicates that, just like the males, the female offender population continues to come to jail as it ages. It is interesting that the female offenders seem to be reporting more children this year than in 2001. Some tables from 2001 that contain these statistics appear below to make it convenient to compare them against this year's information.

2001 age at booking	
teens	12.1%
20's	37.6%
30's	29.9%
40's	17.3%
50's	2.5%
60's	0.5%
70's	0.0%

2001 # of children	
none	25.8%
one	19.6%
two	21.7%
three +	32.9%

2001 recidivism	
1st time	30.8%

## TalkingPoint!

For the purposes of analysis, there are actually two "populations" of people who come to the county jail. This page contains information about the "stock" population in jail, while the previous three pages contained information about the inmates being booked into jail. The stock population are the inmates who actually stay in jail after their arraignments and/or initial opportunity to post bail, so they tend to be the more serious criminals. There are many interesting comparisons between the stock population and the total group of offenders coming to jail, as you can see if you compare this page with page "Profile 1." For example, the stock population inmates are more likely to be repeat offenders, with 85% of them having been in jail before compared with 76% of the other population. Not surprisingly, they have more charges against them than the other population. Interestingly enough, more of them report being single rather than married or divorced, and more of them admit to having no occupation. More of these inmates are arrested on first or second shifts, and fewer on third shift. More of them are male. The racial profile of the stock population is also somewhat different than that of the other population.

## Interesting Random Facts About KCCF Inmates

	<i>male</i>	<i>female</i>	<i>together</i>
? Average age	31.12	31.19	31.13
? Average number of kids	1.6	2.1	1.7
? Average number of charges	1.7	1.4	1.7
? Average grade completed	11.6	12	11.8
? Percentage who can't write English	9.3%	7.5%	8.9%
? Percentage who can't speak English	7.3%	8.3%	7.6%
? Average length of stay (days in jail)	11.1	6.7	10.2
? Admit to belonging to a gang	4.8%	1.2%	4.1%
? Percentage who are USA citizens	89.6%	94.9%	93.6%
? Average # of times in jail	6.9	8.8	7.4
? Most frequently claimed occupation	<i>none</i>		
? 2nd most frequently claimed occupation	<i>unemployed</i>		
? 3rd most frequently claimed occupation	<i>general labor</i>		
? 4th most frequently claimed occupation	<i>factory</i>		
? 5th most frequently claimed occupation	<i>food service</i>		
? Most frequently claimed religion	<i>none</i>		
? 2nd most frequently claimed religion	<i>protestant</i>		
? 3rd most frequently claimed religion	<i>catholic</i>		
? Most frequently claimed military service	<i>none</i>		
? 2nd most frequently claimed service	<i>army</i>		
? Average time before bonding out	<i>58 hours</i>		
? Besides MI, most common state of birth	<i>Illinois</i>		
? 2nd most common state of birth	<i>Mississippi</i>		
? Most common charge (in custody inmates)	<i>assault (includes felony, misd., robbery and sexual as a group)</i>		
? 2nd most common charge (in custody)	<i>theft (includes all types in group)</i>		
? 3rd most common charge (in custody)	<i>disorderly (includes all charges in that group)</i>		
? 4th most common charge (in custody)	<i>Drugs (includes all types in group)</i>		

### **Talking Point!**

In 2003 we had 22,607 offenders come to jail for a total for 33,074 times. Of that number, 19 offenders came to jail 10 or more times during 2003 alone, with one offender coming to jail 18 times. In 2004, we had 21,727 offenders come to jail for a total of 31,737 times. In 2006, we had 24,419 offenders come to jail for a total of 31,354 times. Of that number, 34 offenders came to jail 10 or more times during 2006 alone, with one offender being tied for first place, coming to our jail 18 times in one year. In some of those cases, the offenders were participants in the drug court program administered by Judge Bowler, and throughout the year he threw them in jail for short periods of time when they were out of compliance with his orders. Among the non-drug court group, we had one 36 year old offender who came to jail 12 times in 2006 on unrelated arrests for DWLS and larceny. Among the 2006 offenders, we had one offender who came to our jail for his 101th visit. He only made it into our jail one time during calendar year 2006, but maybe only because he was in prison for most of the year.

## Correctional Facility Employee Profile

Category	Total	% of total
Number of persons employed in the jail system as of January 1, 2007	300	
Number of male employees	203	68.67%
Number of female employees	97	32.33%
Average age of employees	41.1	
Average age of male employees	41.3	
Average age of female employees	40.63	
Average years of seniority	10.98	
Average years of seniority of male employees	11.41	
Average years of seniority of female employees	10.08	
Racial breakdown - White	241	80.30%
Racial breakdown - Black	33	11.00%
Racial breakdown - Asian of Pacific Islander	5	1.70%
Racial breakdown - Native American	2	0.70%
Racial breakdown - Hispanic	19	6.30%
Type of Employee - Supervisory	31	10.33%
Type of Employee - Deputies	189	63.00%
Type of Employee - Administrative Support Personnel	35	11.67%
Type of Employee - Other Personnel	45	15.00%
Number of employees hired in 2006	15	
Number of deputies hired in 2006	9	
Gender of newly hired deputies - male	5	55.56%
Gender of newly hired deputies - female	4	44.44%
Race of newly hired deputies - White	7	77.78%
Race of newly hired deputies - Black	2	22.22%
Race of newly hired deputies - Asian or Pacific Islander	0	
Race of newly hired deputies - Native American	0	
Race of newly hired deputies - Hispanic	0	
Of the 100 deputies hired since July 1998 - number with 4-year degree	59	59%
Of the 100 deputies hired since July 1998 - number with 2-year degree	27	27%
Of the 100 deputies hired since July 1998 - number w/o a degree but with military	4	4%
Of the 100 deputies hired since July 1998 - number w/o a degree but with experience	9	9%
Number of deputies who resigned in 2006	3	
Number of deputies who retired in 2006	3	
Number of deputies who were terminated in 2006	0	
Turnover rate of deputies in 2006		3.10%

 **Talking Point!** The information contained in the table above was correct as of January 1, 2005. It should be noted that our deputy turnover rate is low when compared with other jails our size around the country. Turnover rates in jails of 10% to 15% are not uncommon, and rates of 25% and higher are sometimes reported.

## Outnumbered

### *The Growth in the Number of Inmates Compared to the Number of Staff*

	1975	1980	1985	1990	1995	2000	2006
Total Staff Positions (includes civilians)	107	136	170	184	287	304	300
Total Inmates (includes MJ, HC and CRC)	404	517	735	861	1023	1158	1286

**Talking Point!** This graph compares the growth in the number of inmates in our facilities against the growth in the number of sworn and civilian staff who have to take care of them. During the time period shown, the inmate population increased 220%, outpacing the rate of staff growth, which was 180%. Staffing numbers were provided by the Human Resources department.

# Booking and Population Statistics

## Total Number of Inmates and ADP Continue to Grow

	bookings per day	bookings per month	total bookings for 2006	average daily population for the MJ / HC / CRC
Average	86	2,599		1,286
Median	86	2,629		1,284
Mode	89			
Minimum	23	2,318		1,163
Maximum	125	2,791		1,392
		<b>Sum</b>		31,354

# The Average Daily Population of the Main Jail, Honor Camp, and the Community Reentry Center

 **TrendSpotter!** The average population for the main jail in 2005 was 1,064. The average population for the Honor Camp 2005 was 50. The average population for the Community Reentry Center was 128 in 2005.

# The Number of Inmates Brought to Jail per Year

## Number of Admissions Show Modest Increase

 **TrendSpotter!** This chart shows the number of bookings each year (blue line) with the % of increase or decrease from the previous year (green bar). We averaged a 6.5% yearly increase during this period.

# Number of Bookings and Average MJ Peak Populations

year	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
<b>NBI</b>	25,232	25,782	27,750	29,497	29,236	29,202	30,238	31,088	33,072	31,373	31,164	31,354

year	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
<b>ADP</b>	904	938	950	959	928	950	967	1,004	1,064	1,073	1,064	1,052
<b>Peak</b>				1,040	1,028	1,027	1,035	1,102	1,137	1,139	1,161	1,145

**TalkingPoint!** The bottom chart shows the difference in the Main Jail between the **AVERAGE** population and the **PEAK** population. We have more inmates than average **52%** of the time, and we have to be able to house them as well.

# Annual Average Daily Population for all Inmates in KCCF Custody

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Community Reentry Center, Honor Camp, **and** inmates lodged in other agencies. The figures prior to 1994 do not include the inmates boarded out in other counties prior to the new jail opening up. The 1997 figure is an estimate because some of the data is missing. Trend line added.

# Average Daily Population of the Honor Camp, Community Reentry Center, Main Jail and the Total for all Inmates in KCCF Custody for the Last 10 Years

# Average Population vs. Peak Population at the Main Jail

**TalkingPoint!** There are two types of counts we need to be concerned about. We almost always think in terms of "average" and forget that at least 1/2 of the time the jail's count is more than average. The jail's capacity has to be able to handle the peak numbers of inmates. These two charts compare the average with the peak, and the bottom chart points out that for the last three years, the peak is usually OVER capacity.

# The Distribution of Male and Female Inmate Racial Types Over Time and On Average

 **TrendSpotter!** There was some interesting variation in the females over the last few years, although the last three years has been constant.

# History of Jail Capacity in Kent County

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1835	First Kent County Jail consisted of two cells in the corner of the Courthouse				
1845	First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjoining counties.				
1855	A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside.				
1872	Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise."	114			
1913	Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today."				
1950	Peak Average Daily Population reaches 162 inmates.				
1954	After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail.				
1958	Original Ball Avenue Jail constructed with a capacity of 240 beds.	240			240
1968	Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288.	240	48		288
1974	Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404.	356	48		404
1977	Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499.	451	48		499
1977	61st District Court creates Community Service Program for sentenced misdemeanor cases.				
1979	Lawsuit filed by six inmates in U.S. District Court.				
1980	Formation of "Alternatives to Incarceration" task force.				
1980	We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years.				
1981	Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre-trial Screening begins at the jail.				
1982	Work Release facility created at the Salvation Army building with a capacity of 48 beds.	451	48	48	547
1982	Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court.				
1982	Federal Court order by Judge Enslin in the matter of Johnson v. Heffron limiting occupancy at the Main Jail to 95 percent of capacity.				
1983	Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669.	573	48	48	669
1984	Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services.				
1984	Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693.	573	48	72	693
1984	Jail Management System approved for automating records at the Kent County Jail.				

# History of Jail Capacity in Kent County

1985	Agreement to house up to 25 females at Project Rehab Community Treatment Center.				
1985	Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711.	573	48	90	711
1987	Jail Population Management Board formed to study causes of jail crowding.				
1987	Electronic Monitoring and Work Crew programs started with Federal Grant				
1988	Additional judge added for 17th Circuit Court				
1989	Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988.				
1989	Approval of Comprehensive Criminal Justice System Study by David M. Bennett.				
1989	Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Total capacity for all jail facilities is 775.	637	48	90	775
1989	Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is 789.	637	48	104	789
1990	This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146.				
1990	Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition.				
1990	Contract approved for jail architectural services.				
1990	Creation of Criminal Justice Coordinator position.				
1991	Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements.				
1992	New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department.				
1992	Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week coverage at the jail.				
1993	New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152.	1,000	48	104	1,152
1993	Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges.				
1993	Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48.				
1994	The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years.				
1996	Order from the Federal Sixth Circuit Court granting relief from Judge Enslin's count reduction measures.				
1997	Pre-trial Electronic Monitoring program re-started after being discontinued in 1989.				
1997	Federal grant program enables Kent County communities to add large numbers of new police.				
1998	Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, beginning the capacity of the Main Jail to 1,024.	1,024	48	104	1,176
1998	Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community residential facilities.				

# History of Jail Capacity in Kent County

1999	29 additional double bunks added for a total of 53, bringing us to a capacity of 1,053 in the Main Jail, and a total capacity of 1,205.	1,053	48	104	1,205
1999	Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity to 136. Total system capacity is now 1,237.	1,053	48	136	1,237
2000	9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246.	1,062	48	136	1,246
2002	32 additional double bunks added for a total of 94, bringing us to a capacity of 1,094 in the Main Jail, and a total capacity of 1,278.	1,094	48	136	1,278
2003	Two additional judges added for 17th Circuit Court.				
2003	Six additional bunks added to the Honor Camp, increasing its capacity to 54.	1,094	54	136	1,284
2004	Ten additional bunks added to Work Release, increasing its capacity to 146.	1,094	54	146	1,294
2004	Corrections and Detention Millage Committee formed				
2005	Two additional bunks added to the Honor Camp, increasing its capacity to 56	1,094	56	146	1,296
2005	Corrections and Detention Millage Committee submits final report to County Administration in December				
2005	Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center.				
2006	Expansion at the Community Reentry Center completed.	1,094	56	248	1,398
2006	Two additional bunks added to the Honor Camp, increasing its capacity to 60	1,094	60	248	1,402
2006	90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492.	1,184	60	248	1,492
2006	Renovation started on the new Mental Health Unit. 53 bunks taken out of service.	1,131	60	248	1,439
2006	Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolation and expansion.				
2007	Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478.	1,170	60	248	1,478

# Comparison of Jail Incarceration Rates

Jail Incarceration Rates per 1,000 Residents	
Region	Jail Beds per 1,000 Residents
Charleston County, South Carolina	4.93
Calhoun County, Michigan	4.53
Newago County, Michigan	4.25
Hillsborough County, Florida (Tampa)	4.01
Texas Average	3.45
Wisconsin Average	3.37
Florida Average	3.36
Indiana Average	2.93
Montcalm County, Michigan	2.84
National Average	2.43
Michigan Average	2.33
<b>Kent County, Michigan</b>	<b>2.17</b>
Muskegon County, Michigan	2.12
Ionia County, Michigan	2.05
Ottawa County, Michigan	1.83
Macomb County, Michigan	1.75
Allegan County, Michigan	1.54
Oakland County, Michigan	1.49
Kalamazoo County, Michigan	1.36

## TalkingPoint!

This table and chart provide some ability to compare the jail incarceration rates in various jurisdictions. These are jail rates and they do not include prison inmates. Rates vary widely depending on local practices, available alternatives, crime rate, and other factors.

# Total Number of Times an Inmate has been in KCCF

## Core Group of about 2,000 Offenders Repeatedly Return to Jail

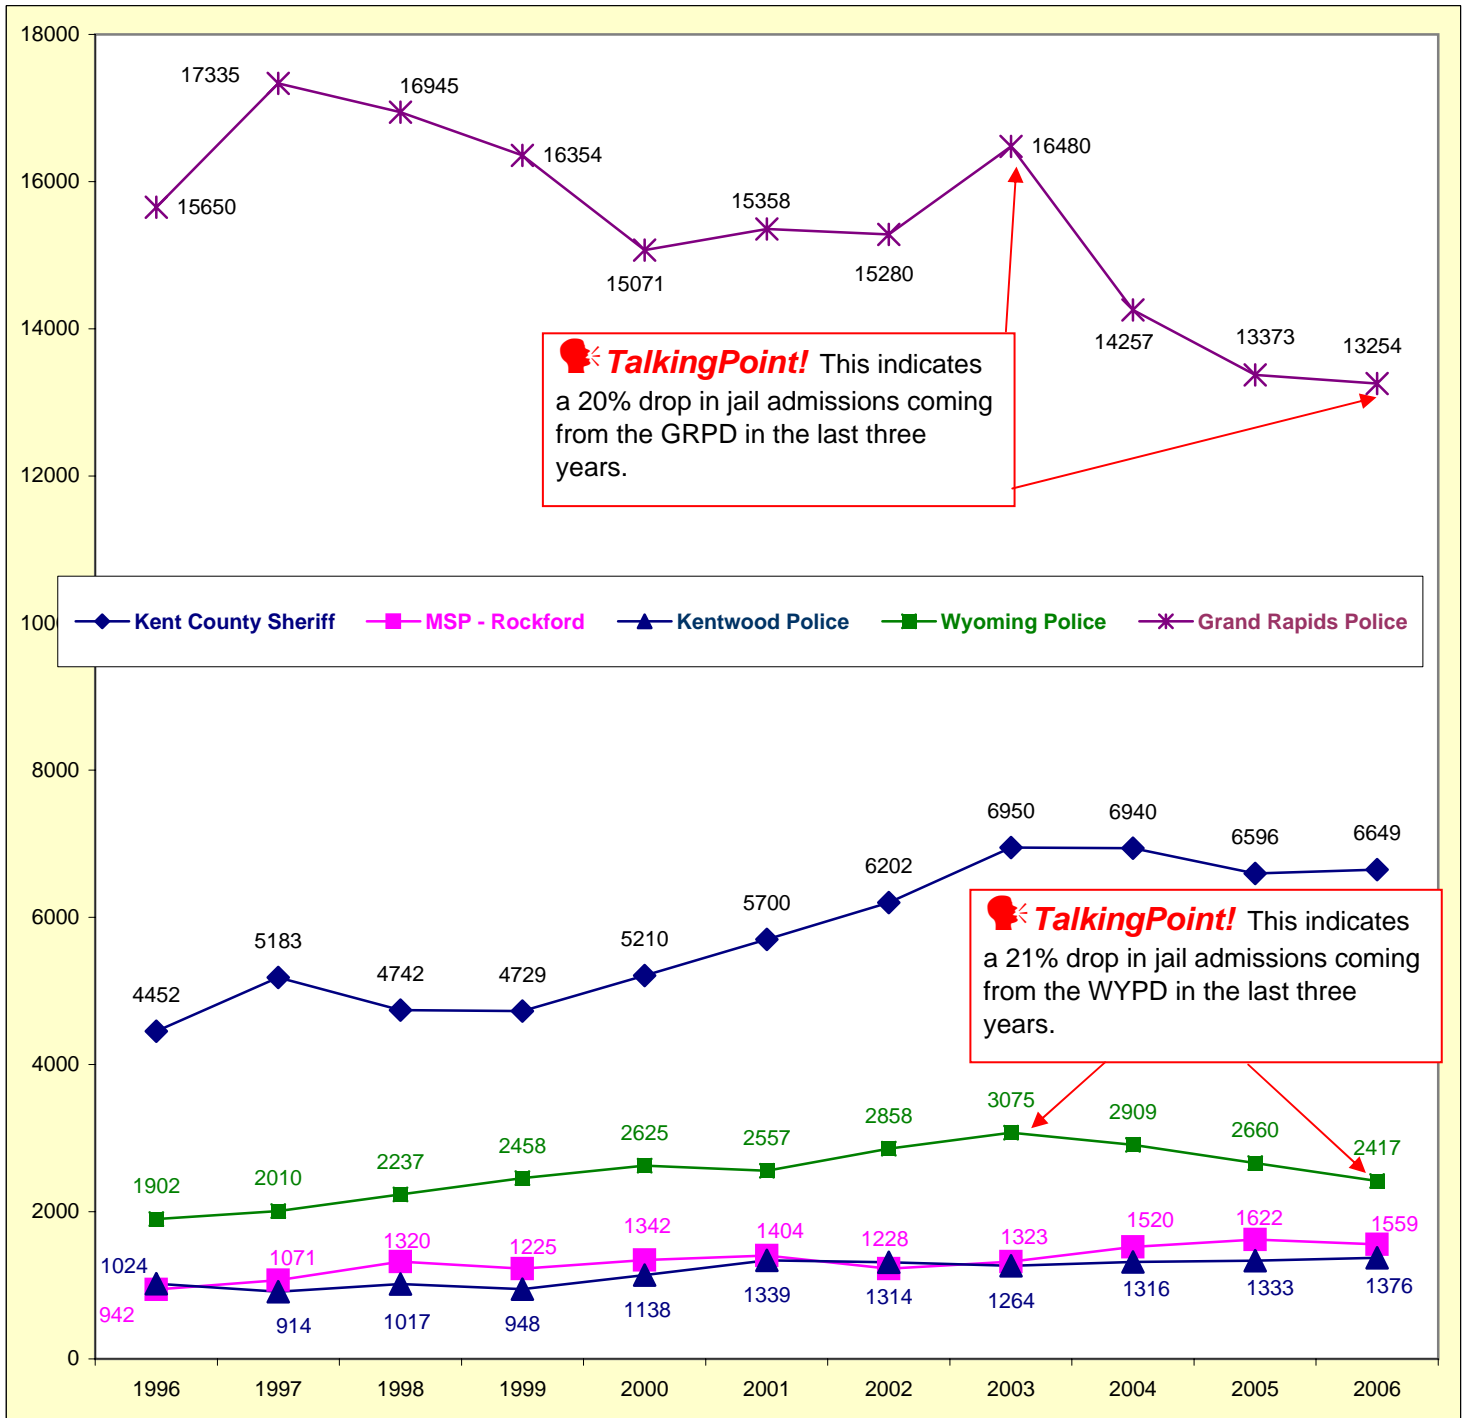

These graphs were produced by taking a sample of **24,419 offenders arrested in 2006** and counting how many times they had been in the Kent County Correctional Facility. The point of producing these graphs side-by-side is to show the difference in the number of times in jail between the repeat offenders (the recidivists are in the top chart) and the whole population that includes the lightweights (bottom chart).

**TalkingPoint!** Of all the people brought to jail, 51% are there for their first, second or third visit. In the sample used for the top chart, there was one inmate who had been in KCCF **101 times**. Remember, these numbers are just counting the times these offenders were in the Kent County Jail and doesn't include visits to jails in other counties.

# Number of Inmates Brought to Jail in the Last 10 Years by the Top Five Arresting Agencies

## Grand Rapids and Wyoming Reduce Arrests

**TrendSpotter!** Grand Rapids Police Department and Wyoming Police Department continued a trend of reduced numbers of offenders they arrested and brought to jail during the year. Grand Rapids police made a significant reduction, with the fewest number of admissions to jail in several years. The arrests this year increased slightly for the Sheriff's Department and the Kentwood Police.

# Inmate Classification System

Midway through 2004 the jail began using a new Jail Management System called JailView. JailView uses the Northpointe® decision tree classification instrument which breaks inmates down into the traditional three categories of Maximum, Medium and Minimum, but it also provides nine levels of sub-categories that are useful for making program and placement decisions. Below is a brief definition of each of the custody levels and the average number and proportion of inmates within each classification.

Custody Level	Definition	Main Jail	Jail System
High (1)	These inmates are in jail on a violent charge, with a prior conviction on a violent charge, and with a record of violent institutional behavior.	8 (1%)	8 (1%)
Close (2)	These inmates have a combination of two incidents of violence found in either their current charge, past charges or institutional behavior record.	81 (8%)	81 (7%)
Medium Assaultive (3)	These inmates have one incident of violence in either their current charge, past charge or institutional behavior.	187 (17%)	187 (14%)
Medium (4)	These inmates are in jail for a serious non-violent felony and/or have institutional behavior problems.	400 (38%)	400 (29%)
Medium Pre-Sentenced (5)	These inmates are likely prison bound, but they are well behaved and have no record of violence or rule violations.	58 (5%)	58 (5%)
Minimum Pre-Sentenced (6)	These inmates will likely not go to prison and are well behaved with no record of violence or rule violations.	156 (14%)	168 (13%)
Minimum (7)	These inmates are fully sentenced to county jail time on a felony charge, have no recent history of violence and are well behaved, but they lack employment or ties to the community.	32 (3%)	92 (7%)
Low (8)	These inmates are sentenced to the county jail on a felony charge, have no recent record of violence, are well behaved and have employment or local ties to the community.	49 (5%)	144 (14%)
Very Low (9)	These inmates are sentenced to the county jail on misdemeanor charges, have no recent record of violence, are well behaved and have ties to the community.	30 (3%)	85 (6%)

# Average Amount of Time Inmates Stay in Jail, Shown with Inmates Grouped by Release Type

The graph above was based on a sample of 29,772 inmates released in 2006.

**TalkingPoint!** The pie charts below contain a comparison of the ALOS at the time of a 1988 jail expansion study called the "Bennett Study" and the ALOS in 2006, depicting the much shorter ALOS in 2006.

	1989	2006
< 1 day	28.17%	47.24%
1 day	13.55%	14.66%
2 to 4 days	12.90%	8.70%
5 to 15 days	14.84%	11.91%
16 to 30 days	6.24%	7.16%
> 30 days	24.30%	8.94%

# Average Length of Stay Depicted as Jail Bed Days

**TalkingPoint!** This chart shows the concept of average length of stay depicted as Jail Bed Days. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart about shows that although we had 14,066 people who stayed less than one day in jail, they used about the same number of jail beds days as the 3,808 inmates who stayed 2 to 4 days in jail. In fact, the 1,300 inmates who stayed 31 to 60 days used the most jail beds. The main interpretation of these data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from two to ten weeks. It is that group of inmates who are using most of the jail's beds.

# of Days in Jail	# of Inmates
< 1	14066
1	4211
2 to 4	3808
5 to 15	3548
16 to 30	2133
31 to 60	1300
61 to 90	570
91 to 120	301
121 to 150	285
151 to 180	97
181 to 210	50
211 to 240	28
241 to 270	13
271 to 300	9
301 to 330	6
> 331	3

# Reasons Why Inmates are Released and the Percentage of Inmates Released in the Most Common Types of Releases

*90% of Incoming Inmates Released Back to the Community*

**TalkingPoint!** 90% of the inmates who come into our jail are released directly back into the community. (This chart is based on a sample of 29,697 records in 2006.) Only about 10% get sent to prison or to another agency. Hard data is not available on that 10%, but probably most of those inmates return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

# Number of Days Inmates Spend in Jail Before Being Released

*90% of All Inmates Are in Jail Less than 30 Days*

# County Jail Reimbursement Program

## *Fiscal Year 2006 Update*

Kent County once again received funds through the Michigan Department of Correction's (MDOC) County Jail Reimbursement Program (CJRP) during FY 2006. CJRP works through a process whereby MDOC reimburses Kent County for housing felony offenders (up to 365 days) in the Kent County Correctional Facility whose eligibility for reimbursement is established by MDOC guidelines.

Established during FY 1989, CJRP was originally initiated to encourage the appropriate use of non-prison sanction for offenders that would have otherwise been sentenced to prison. During FY 1989, the original budget for the program was set at \$1.2 million dollars. The budget line in the MDOC budget for CJRP has since grown to \$13.2 million for FY 2004. The program gained statutory permanence in 1998.

FISCAL YEAR	CJRP PAYMENT	TOTAL RECEIVED
1994	\$513,520.00	\$513,520.00
1995	\$863,265.00	\$1,376,785.00
1996	\$764,628.00	\$2,141,413.00
1997	\$731,460.00	\$2,872,873.00
1998	\$695,225.00	\$3,568,098.00
1999	\$699,353.00	\$4,267,451.00
2000	\$1,244,996.00	\$5,512,447.00
2001	\$1,120,632.00	\$6,633,079.00
2002	\$1,212,242.00	\$7,845,321.00
2003	\$1,063,183.50	\$8,908,504.50
2004	\$1,069,839.00	\$9,978,343.50
2005	\$968,571.00	\$10,946,914.50
2006	\$791,613.00	\$11,738,527.50

Factors leading to the decrease in funds received from FY 2005 to FY 2006 are described below:

- One of the changes that have affected the revenue Kent County has received through CJRP is to the reimbursement amount received for each eligible offender. Prior to FY 2003, reimbursement for CJRP-eligible offenders was based on the population of the county and subsequent size of the county's jail. Kent County used to receive \$47 for an offender's first 90 days in KCCF and \$40 for days 91 through 365. Beginning with FY 2003, all counties in Michigan began to receive \$43.50 per day for all offenders.
- Prior to FY 2004, all OUIL 3rd offenders, regardless of SGL or Prior Record Variable scores, were eligible for CJRP reimbursement. Starting with FY 2004, OUIL 3rd offenders, like all other offenders, must meet the same eligibility criteria.
- A decrease in the pool of potentially eligible offenders sentenced to jail for new felony offenses:
- While the ALOS (Average Length of Stay) for CJRP-reimbursed offenders has increased slightly by 5.8 days from FY 2005 through FY 2006, the total number of offenders reimbursed decreased by 23.3% from 253 offenders during FY 2005 to 194 offenders during FY 2006. Less offenders equates to less revenue.
- The average length of sentence that a CJRP-eligible offender receives is beginning to decrease. This impacts CJRP funds as reimbursement can only be sought for eligible offenders for days in jail after their sentencing date.

# Types of Criminal Charges that Bring Inmates to Jail and Types that Keep Them in Jail

LIQUOR	694	3,339	5
TRESPASS	696	2,077	3

 **TalkingPoint!** The information on this page is based on the top charge of 28,180 offenders who were released in 2006. The Jail Bed Days represents the total number of days these offenders stayed in jail. For example, 1 offender sitting in jail for 1 day is equal to 1 Jail Bed Days. 200 offenders in jail for 5 days each is each to 1,000 Jail Bed Days. The purpose of the table and chart on this page is to depict what type of offender uses the most Jail Bed Days, and to show that it is not just the crime category with the most number of inmates. For example, the crime category with the most number of inmates was TRAFFIC, but that category was #5 for the number of actual Jail Bed Days used. The crime category that used the most Jail Bed Days on average per offender, was HOMICIDE at an average of 211.

V331	attempt a Cat 3	3	6	3	2	6	5	0
<b>Total Category 3 Violations</b>		<b>293</b>	<b>343</b>	<b>300</b>	<b>360</b>	<b>400</b>	<b>460</b>	<b>486</b>
<b>Total of All Categories of Rule Violations</b>		<b>6597</b>	<b>6640</b>	<b>6090</b>	<b>6406</b>	<b>7003</b>	<b>7100</b>	<b>9320</b>

## Number of Serious Rule Violations Indexed to Population

*Most Accurate Way to Depict Change with Growing Inmate Population*

	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
<b>Jail Bed Days</b>	342,370	346,750	350,035	338,720	346,750	352,955	366,460	388,360	391,645	387,337	384,134
<b>total rule violations</b>	1,382	981	907	773	626	637	619	760	748	811	807
<b>violations per 1000 Jail Bed Days</b>	4.04	2.83	2.59	2.28	1.81	1.80	1.69	1.96	1.91	2.09	2.10

Because the jail population continues to increase, converting Incident Based data to the number of rule violations committed per 1000 Jail Bed Days gives a more accurate picture of inmate behavior.

# Total Number of Category 1, 2 and 3 Rule Violations in the Last Seven Years

These graphs show the number of Category 1, 2, and 3 reports per year for the last few years. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our disciplinary philosophy is that we would rather deal with an inmate's misbehavior while it is still minor, which is why there are more Category 1 violations than 2's, and more 2's than 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Segregation Unit to complete their disciplinary sanctions.

# Index of Antisocial Inmate Behavior

## *Grouping of Rule Violations that Have to Do with Impolite or Socially Unacceptable Behavior*

"Antisocial" behavior	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
V202 – vulgar language	109	89	99	61	70	69	53	58	51	92	93
V203 – indecent exposure	0	0	3	13	10	4	4	3	5	6	4
V205 – possess tobacco	59	51	38	38	34	21	14	15	20	46	40
V207 – spit/throw liquid	63	21	16	24	13	20	11	11	4	2	17
V211 – making intoxicants	13	8	9	10	9	6	4	5	2	3	3
V213 – stealing	27	19	12	9	2	14	9	12	11	21	22
V217 – consenting sex	0	0	0	2	0	0	0	4	0	2	4
V219 – racketeering	0	0	0	1	0	0	1	0	1	2	0
V230 – urinating/defecating	0	0	0	2	5	5	2	3	3	2	2
V314 – possess narcotics	7	8	6	8	6	6	9	5	10	12	7
V321 – throw liquid on staff	20	14	8	6	6	6	8	4	1	6	4
<b>total</b>	<b>298</b>	<b>210</b>	<b>191</b>	<b>174</b>	<b>155</b>	<b>151</b>	<b>115</b>	<b>120</b>	<b>108</b>	<b>194</b>	<b>196</b>

Each of the inmate rule violations is identified as targeting one of five types of unwanted behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **antisocial behavior**.

# Index of Destructive Inmate Behavior

## Grouping of Rule Violations that Have to Do with Damaging Property

"Destructive" behavior	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
V227 – tamper with razor	0	0	9	1	3	2	2	3	2	1	2
V311 – set or make a fire	3	5	0	1	1	1	1	2	0	0	1
V313 – possess a tool	0	0	0	1	0	0	0	0	2	0	0
V316 – behavior cause injury	2	0	5	2	4	2	2	1	8	11	6
V317 – tamper with lock	11	5	3	2	0	0	1	3	0	1	0
V322 – tamper staff property	11	8	1	0	0	1	1	1	0	2	1
V323 – damage to facility	44	39	30	17	11	12	19	15	11	6	12
V324 – flooding	66	23	16	18	34	8	2	6	9	0	7
<b>total</b>	<b>137</b>	<b>80</b>	<b>64</b>	<b>42</b>	<b>53</b>	<b>26</b>	<b>28</b>	<b>31</b>	<b>32</b>	<b>21</b>	<b>29</b>

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **destructive behavior**. This chart shows a huge reduction in this type of unwanted inmate behavior over the time period shown.

# Index of Noncompliant Inmate Behavior

## Grouping of Rule Violations Relating to Not Following Orders

"Noncompliant" behavior	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
V201 – failure to give name	3	1	7	6	5	4	1	1	0	2	4
V204 – lying	17	13	19	15	12	9	9	12	17	29	25
V206 – coming out of cell	18	4	14	11	6	3	2	4	16	11	7
V209 – going into other cell	0	0	8	3	5	5	7	1	4	2	0
V214 – misuse of meds	38	22	17	18	17	16	23	43	42	46	26
V221 – fail to proceed	1	0	1	0	0	0	0	2	1	0	1
V223 – failure to move	34	8	41	36	48	44	52	49	57	46	57
V224 – hinder staff	7	14	11	20	18	28	13	31	42	22	42
V228 – visiting rules	4	6	4	1	2	2	3	0	0	2	0
V309 – failure to obey	176	127	84	54	22	36	20	40	51	65	44
V310 – fail to lock up	54	35	41	17	24	13	27	50	33	51	55
V330 – manipulate cell	0	0	7	6	11	8	12	17	10	11	23
<b>total</b>	<b>352</b>	<b>230</b>	<b>254</b>	<b>187</b>	<b>170</b>	<b>168</b>	<b>169</b>	<b>250</b>	<b>273</b>	<b>287</b>	<b>284</b>

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **noncompliant behavior**.

# Index of Security Related Inmate Behavior

## Grouping of Rule Violations Relating to Facility Security

"Security Related" Rules	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
V208 – unauthorized area	26	13	18	6	7	4	6	6	4	7	3
V210 – interfere w/ count	0	2	0	1	3	0	1	4	9	0	4
V212 – plan to escape	0	0	0	0	0	0	0	0	0	0	0
V220 – possess contraband	54	45	64	17	9	18	11	5	18	17	15
V225 – block / prop door	13	6	4	3	0	1	1	6	2	3	4
V226 – gang activity	0	0	0	2	0	1	0	0	4	0	0
V305 – attempt to escape	0	0	0	0	0	0	1	2	2	2	2
V306 – walkaway	0	0	11	8	7	7	7	5	9	15	9
V307 – escape	2	6	2	0	1	0	0	0	1	0	2
V315 – introduce contraband	4	8	8	6	2	3	1	4	3	2	1
<b>total</b>	<b>99</b>	<b>80</b>	<b>107</b>	<b>43</b>	<b>29</b>	<b>34</b>	<b>28</b>	<b>32</b>	<b>52</b>	<b>46</b>	<b>40</b>

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **related to the security of the facility**. This time period shows a significant reduction in this type of unwanted inmate behavior.

# Index of Violent Inmate Behavior

## Grouping of Rule Violations Relating to Violent or Aggressive Behavior

"Violent" behavior	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
V215 – sexual threats	7	6	6	1	3	3	4	3	5	0	0
V216 – sex proposal to staff	0	0	2	0	3	2	1	0	5	2	0
V218 – threaten inmate	52	33	24	25	7	16	7	11	24	18	17
V222 – fighting	235	207	156	124	117	127	161	185	116	135	149
V302 – assault inmate	111	87	48	56	51	51	42	62	61	43	36
V303 – assault w/ weapon	0	0	2	2	1	5	1	5	1	2	1
V304 – sexually assault	0	0	1	0	0	2	0	1	0	2	0
V308 – riot	3	0	1	0	0	1	0	0	1	0	0
V312 – possess weapon	34	18	7	2	4	5	7	13	3	7	5
V318 – assault staff	18	10	16	8	7	6	6	5	5	8	3
V319 – aslt staff w/ weapon	0	0	1	0	0	0	0	0	0	0	0
V320 – threatening staff	0	0	9	12	10	11	15	19	22	15	24
<b>total</b>	<b>460</b>	<b>361</b>	<b>273</b>	<b>230</b>	<b>203</b>	<b>229</b>	<b>244</b>	<b>304</b>	<b>243</b>	<b>232</b>	<b>235</b>

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

# Comparison - Index of Inmate Behavior

## Compilation of the Previous Five Charts

This chart shows all five of the inmate behavior index's and how they performed over the last nine years. This is a compilation of the data used in the previous five charts. Each category showed significant reduction over this period. Keep in mind that the overall number of inmates in the Sheriff's custody increased significantly during this same time period.

# Category 1, 2 and 3 Violations by Custody Level

**TalkingPoint!** Category 1 rule violations are the least serious, while Category 3 are the most serious. The rate "per 100 inmates" is the best overall measure, since there are fewer higher custody inmates than lower custody. These figures were calculated using data from 2006. These stats are from all facilities and include just the 10 most serious violations in each category. These charts demonstrate the validity of our classification system, as it shows it is correctly identifying the inmates most likely to commit a rule violation.

# Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions

## KCCF 1999 through 2005

	1999	2000	2001	2002	2003	2004	2005	2006
inmates making suicide attempts or gestures	40	53	72	67	43	46	70	71
total number of inmates placed on suicide precaution	355	265	356	370	397	302	552	464

Our highest level of suicide precaution places inmates in a paper gown, housed in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were declared S-3's because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. These data show that the jail deputies intervene in more than one suicide attempt each week.

## Inmate Behavior per Pod or Housing Unit

### *Minimum Custody Inmates Continue to be Best Behaved*

Housing Unit	Number of Cat 2/3's	Index of Population
B2F God Pod (Sept to Dec)	0	0.000
Middle 1 Man MINM (Jan to August)	2	0.074
URE Sex Offenders	2	0.083
Middle 4 Man MINM (Jan to August)	7	0.117
B2D Male Sober Living Unit	4	0.133
B3 Female Classification Pod	4	0.133
B3H Female AOT, DSU, ASU & PCU	3	0.188
B2G God Pod	11	0.208
D2A Medium Males	15	0.234
B2F MEDM Males (January to August)	8	0.267
Middle 1 Man MEDM (Sept to Dec)	8	0.296
B3D Female Trusty Pod	12	0.400
D3A MEDASSLT Males	29	0.453
D2B MEDASSLT Males	37	0.578
URW PCU Males	17	0.607

D3B MEDM Males	42	0.656
B3B MEDM Female Pod	40	0.678
Annex Male Trusties	45	0.703
Lower 1 Man MAXM Males	20	0.741
B2B Male AOT Pod	13	0.813
Upper 6 Man MEDM Males	86	1.024
D1A Male AOT	9	1.125
D1A Male DSU	34	1.133
B3F Female MAXM/MEDM Pod	19	1.188
Upper 4 Man MEDM Males	73	1.217
Middle 6 Man Males	109	1.298
Old Max MAXM Males	50	1.316
Lower 4 Man MAXM Males	65	1.354
B2C Juvenile Pod	15	1.500
D1A Male ASU	30	3.000

We have a number of separate housing units in the mail jail (their designations appear in the first column). We keep track of the number of inmates who must be moved out of each housing unit and placed in Disciplinary Segregation for a category 2 or 3 violation (the number for this year appears in the second column). We divide the number of rule violations by the number of inmates living in the housing unit to get an index for comparison purposes (this is the number in the third column). The lower the index, the better behaved the housing unit is.

## 2006 Health Services Report

Is the inmate orientated to person, place and time?	97.8%	2.2%
Have you ever experienced auditory, visual, olfactory, or tactical hallucinations?	2.9%	97.1%
Has inmate ever had or experienced delusional thinking, examples?	0.3%	99.7%

 **TalkingPoint!** Every offender brought to jail is evaluated by a mental health professional while still in Intake. The answers to the mental health survey questions they are asked are summarized above. The data in this table is based on the offenders who came to jail during 2006.

# Inmate Needs Reported in Classification Interview

## Offenders Come to Jail with a Number of Needs

Question:	% Yes	% No
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	34.5%	65.5%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	18.7%	81.3%
3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement?	26.0%	74.0%
4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement?	34.4%	65.6%
5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment.	37.2%	62.8%
6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp?	63.6%	36.4%
7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if is the inmate has no skills, limited training, or little or no employment history.)	14.6%	85.4%
8. LITERACY: Can this inmate read and write the English language?	93.6%	6.4%

**TalkingPoint!** These numbers represent the percentage of inmates in population who admit these needs to a classification officer. This information is based on the self report of the inmates during their classification interviews this year. It is not based on a clinical assessment and the report is not verified independently. This reflects an inmate's "admission" only. Not all inmates honestly report their needs at the classification interview. All inmates who stay in jail longer than 3 days are given a classification interview.
